Solutions

SAP Business One & Produmex
WMS Add-On

Hanan Distribuciones successfully established itself with customers that serve Mexico's booming tourist industry as a one-stop-shop for a wide variety of international snack food brands. It adopted SAP® Business One to manage its steadily-growing operations and responded to customers' requests for shortened delivery times by adding Produmex WMS.

Why choose SAP, Boyum and our add-on:

- SAP Business One offered the required scope of functionality. Furthermore, continuity and further evolution of the solution is ensured.
- Produmex WMS was chosen for its robust inventory management and capabilities and its ease of use.
- Produmex's expertise in the area of food wholesale and distribution.

Which benefits have you achieved after the implementation:

- Increase of efficiency and productivity and error and cost reduction through automation of logistic processes, including goods receipt, put away, picking, packing and shipping .
- Faster order fulfilment.
- Reduction of waste through expiry date monitoring and FEFO picking.

"The team was quickly up and running with the new system and errors dramatically decreased almost immediately. It's second nature to us now."

Husam Elas, CEO, Hanan Distribuciones
