

SOFTWARE ENGINEER - INTERN

Are you ready to embark on a journey with Boyum IT Solutions, a certified Healthy Place to Work where our employees thrive in a vibrant and professional environment? Our team believes in work-life balance, and we prioritize a culture of wellness. In fact, 92% of our employees feel supported by their peers, and 90% appreciate the freedom to balance work and personal life. Boyum IT Solutions creates award-winning solutions that solve business challenges within supply chain management, in areas such as manufacturing, logistics, quality control, and invoicing.

As an Intern at Boyum IT Solutions, you'll gain invaluable hands-on experience throughout the entire software development process, from initial analysis and design to implementation, testing, and release. You'll acquire essential skills in designing scalable and high-performance software systems while becoming an integral part of our dedicated team right from day one. Our headquarters in Aarhus will be your base of operations.

Technologies and Methods:

The specific technologies and methods you'll work with will depend on the team and business area you join. You can expect exposure to a variety of tools and practices, including but not limited to:

- Development languages: .NET C#, HTML, CSS, JavaScript, TypeScript
- Web service technologies (REST, Webhooks, etc.)
- Information management and storage (SQL Server, Cosmo DB)
- Cloud infrastructure within Microsoft Azure
- Source Code Management
- Agile methodologies such as Scrum or Kanban

We are seeking an intern who can:

- Communicate confidently and demonstrate genuine commitment.
- Maintain a positive and transparent approach when facing challenges.
- Show enthusiasm for learning and adapting to various technologies.
- Take initiative and be ready to propose improvements.
- Communicate fluently in English.

To apply, please send your CV, cover letter, portfolio, and/or case studies to hr@boyum-it.com. We look forward to hearing from you!

If you're eager to dive into the world of software development, work collaboratively in a supportive environment, and grow alongside experienced software developers, Boyum IT Solutions is the ideal place for you to kick-start your career.

Join us in shaping the future of software engineering.
