

**Boyum add-on(s):** B1 Usability Package & B1 Print & Delivery

---

**Reasons for choosing Boyum:**

Boyum was chosen to add security to fields that was not possible previously with SAP Business One alone and to also simplify the ability to customize screens as needed.

---

**Key benefits:**

- ✓ Customization that allows for increased productivity, tracking, efficiency and effectiveness.
  - ✓ Functionality that aides in the checks and balance processes via messages and alerts.
  - ✓ Print and Delivery has not only saved time and money, but also the "human error" element has been minimized.
  - ✓ Overall increased productivity for several employees.
  - ✓ Less rework for multiple employees.
- 

**Quotes:**

*"I cannot imagine running SAP Business One without Boyum. The application is easy to use and is a seamless add-on that add substantial value to a company"*

*"Boyum provide an excellent product, documentation and support/training enabling users to use the add-on to its full capability".*

*"B1UP has allowed our company to operate at an optimal level.*

*We have seen significant cost savings by streamlining processes through the module enhancement capabilities that Boyum offers."*
