

**Boyum add-on(s):** B1 Usability Package (B1UP)

---

**Reasons for choosing Boyum:**

Boyum was recommended by a SAP Business One reseller for the customisation of SAP Business One. It increases the customer satisfaction and makes the work with SAP Business One both faster and more efficient.

---

**SAP Business One Partner:** Frontline Consultancy

---

**Functionality covered with Boyum add-ons and not through standard SAP Business One:**

- ✓ **Function Buttons** which allow easy access from any window launching different programs, reports and basically almost anything you need.
  - ✓ **E-mail Launcher** allowing you to automate all outgoing communication with our suppliers and customers all in one click or an easy schedule.
  - ✓ Adding **new tabs** to any window, is helping us store additional information in an easy to view way.
- 

**Key benefits:**

- ✓ Automate business processes using Macros
  - ✓ Easy navigation and easy to setup
  - ✓ Various customization ideas realized using the add-on
- 

*"The B1 Usability Package is very userfriendly for someone not from a IT background. Their online training webinars are very interesting and have been a great help".*
