

Boyum add-on(s): CRM for Outlook

Reasons for choosing Boyum:

Boyum was chosen because of their new add-on. CRM for Outlook is quick and easy to implement and provides an integrated overview of business partners right inside Outlook.

You can easily create activities in the familiar Outlook environment or open customer offers directly in SAP Business One with just one click.

The ease of use and fast implementation convinced us of the product.

Key benefits:

- ✓ The simplicity in installing the add-on
 - ✓ Easiness of use of the product
-

Quote:

“With the CRM for Outlook add-on from Boyum IT you get an extremely user-friendly add-on and all processes in the Customer Relationship Management are easily and quickly displayed”.

“CRM for Outlook is the perfect CRM integration tool. You can access the right data in just a few seconds directly in Outlook.”
