Beas Manufacturing

Full traceability and production control with Beas Manufacturing and SAP Business One

Since 1973 ACM designs, manufactures and markets a wide range of machines and special materials helping food, pharmaceutical, cosmetics, industrial companies to package their products in a distinctive, sustainable and efficient way.

Before: Challenges and Opportunities

- Rapid business growth and appetite for innovation.
- Needed better production control and customers were requesting 100% traceability of production.

Why SAP and Beas Manufacturing

- The Beas Manufacturing solution provides real time visibility into every step of the production process
- SAP Business One is internationally renowned and can flexibly adapted to specific needs
- Brain System had a deep understanding of the company's business processes

After: Value-Driven Results

- Real-time reporting –we know now exactly what we have in stock.
- Full traceability of the production in just 2 clicks
- Shorter production cycle times, improved production efficiency and quicker and better customer response time

“We are proud the Company is working together with SAP Business One, Brain System and Beas Manufacturing. Is really is a tailor made program for us.”

Antonio La Franceschina, CEO, ACM Srl.
