Aceites García de la Cruz, founded in 1872, manufactures, packages and markets olive oils and covers everything in the process, from the collection, to the delivery of your star product: the Extra Virgin Olive Oil. The company has grown from a small family business to one of the leading olive oil companies. They market their products across the five continents in more than 40 countries.

Why choose SAP, Boyum and our add-on:

- System that can support their growth in business as well as in transaction volume
- Manufacturing add-on designed to be fully integrated with SAP Business One

Functionalities covered by Boyum add-ons and not standard SAP:

- Obtain valuable information to analyze any aspect of the business
- Advanced manufacturing highly support the planning regarding cost control

Which benefits have you achieved after the implementation:

- Beas Manufacturing manages and controls all the scanners and the production line.
- Accurate information on traceability and all production processes.
- More fluid communication from commercial to production.
- More information available that allows analyzing any aspect of the business.
