Vision 33

Bangkit USA gained automation, saved time, and improved its efficiencies with B1 Usability Package & B1 Print & Delivery

Bangkit (U.S.A.), Inc. provides wholesale distribution of products ranging from office supplies, school supplies, writing instruments, paper products as well as arts & crafts. Their expansive worldwide presence now covers more than 60 countries and territories in the world, spanning across North & Central America, the Caribbean, the Middle East, Asia, and Australia.

Challenges

- Sales orders required queries that were cumbersome for customer service.
- Manual work for invoices was time-consuming.
- Customer service and Account Receivable did a lot of manual work.

Solution

- The buttons for customer service, create new user-defined fields easily and it shows up in the main SAP Business One dashboard/window.
- Boyum buttons eliminated seven manual checks prior to Boyum implementation.
- It integrates with Doc Link to provide a robust solution.

Results

- Now, all employees are using B1UP for reporting, additional fields for sales, and the warehouse.
- Invoices automated with Print & Delivery.
- Improved efficiencies.
- User-friendly.

"BOYUM IS THE MOST ESSENTIAL TOOL FOR SAP BUSINESS ONE. WE HAVE BEEN USING IT FOR OVER 10 YEARS."

Stephanus Trisnadi / Computer & Information System Manager
