SAP Solutions

SAP Hana, Beas Manufacturing

Grupo Victor is a company dedicated to providing equipment solutions for the agrobusiness sector. They produce systems for handling bulk goods, sifting, mixing, as well as filling and sealing sacks and transporting them.

Before: Challenges and Opportunities

- Problems stemming from the simultaneous use of 2 different systems
- Duplicated functions and wasted time

Why SAP and Beas Manufacturing

- SAP Business One, because it provides all the necessary infrastructure for administrative monitoring.
- Beas Manufacturing for its efficiency in the production and manufacturing of our products.
- Tesselar because of their proximity to our team and their determination to satisfy our needs.

After: Value-Driven Results

- Improved cost control and visibility about what each machine cost in real-time
- The ability to track and trace the equipment we manufacture and the components contained in each piece of equipment.
- Check how the business is going right now with just one click.
- Total control over sales and increase and explore new markets with the assurance we will be successful.

Featured Partner

"What we don't measure we don't control. With SAP HANA and Beas Manufacturing we now monitor all our operations throughout the entire company."

Gerado Hernández, Director Grupo Victor
