Produmex WMS

FEATURED PARTNER

Synesis International

KASCAR® a leading global distributor of multiple product lines including SKYLOX® Aircraft Safety tools, Pre-owned personal watercraft, TRITON Trailers and parts and as the largest stocking distributor of HMMWV® and HUMMER® parts and service in the world. KASCAR® can supply "...everything from lug nuts to complete trucks!" With many international production facility partners, KASCAR® products are marketed in nearly all "friendly Trade" countries worldwide.

Customer Challenges

- Kascar had an outdated WMS product that was going out of date and needed upgrade or replacement.
- Required logging into a separate back-end for maintenance and control.
- Decreased productivity as their information was segregated which created inaccurate information.

Solution

- Had reviewed multiple options including changing ERP but chose to stay with SAP & move to Produmex both for historical consistency & financial reasons.

Results

- Produmex provided several improvements in performance and ease of use.
- Software was found to be easier and more time saving than the former system.
- Ability to more easily control bin contents and locations directly through the SAP interface.

"PRODUMEX WMS FUNCTIONS ARE ENTIRELY INSIDE SAP. CONTROLLING BIN CONTENTS AND LOCATIONS DIRECTLY THROUGH THE SAP INTERFACE. FROM A MANAGEMENT STANDPOINT, THIS IS THE GREATEST ADVANTAGE OVER WHAT WE HAD PREVIOUSLY."
