Delivery

Masach Tech™ specializes in board level EMI/RFI shielding design and production for small, medium and large scale runs. Founded in 1994, Masach™ is a globally recognized and leading supplier of some of the world's largest electronic companies, driven by highest quality customer service with uncompromised product performance.

Why choose SAP, Boyum and our add-on:

- No other way of understanding what was really going on the shop floor
- For an efficient management of costs and resources we needed comprehensive and accurate information .

Which benefits have you achieved after the implementation:

- Improving the flow and procedures of the production
- Providing real-time visibility into the entire order management process with relevant information
- Gaining more visibility into all processes and optimizing each step efficiently
- Make work orders much simpler by controlling the process from start to finish
- Save time and effort in processing work orders

“Historically we were a subcontractor operating in a make-to-order environment, but today we also produce our own products on a make-to-stock basis, and the flexibility of Beas Manufacturing supported this business change”

Amihai Zelwer, Masach Technologies
