Track, measure and monitor the entire business with Beas Manufacturing and SAP Business One

Prositter S.A. of C.V. is a Mexican company founded in 1996, specialized in the manufacturing and sales of veterinary pharmaceutical products. SAP Business One and Beas Manufacturing provide them with the fundamentals needed to run their business and allow them to take the next step and expand and move into new markets.

Before: Challenges and Opportunities

- Striving for quality in both the raw and finished materials.
- Our plan and dream is to expand our business and export to other countries outside Mexico.

Why SAP and Beas Manufacturing

- Needed a tool to be efficient and profitable and to support the growth ambitions – only when all departments are linked to one other, you can make best use of the data you have collected.
- Red Sinergia are experienced and very detail-oriented.

After: Value-Driven Results

- All our departments are connected to one single entity and allows a complete overview of our business and how we are doing.
- Using SAP Business One and Beas Manufacturing helps and impact the quality they have attained.
- Improved management and optimization of inventory and consumption of materials.

“Beas Manufacturing basically means efficiency, low costs and high quality products and that is what you should be looking for in order to be efficient and profitable.”

Oscar Telésforo Alvarado, General Manager, Prositter
