60

SAP Solutions

SAP Business One, Beas Manufacturing

Reuter Technologie GmbH is a mid-sized family business with about 60 employees at two locations. Its core expertise lies in the manufacture of high-precision components, mainly from copper and stainless steel, as well as the joining of components by means of vacuum soldering. The customer base consists of the semiconductor industry, special mechanical engineering, thin-film technology as well as industry and research.

Before: Challenges and Opportunities

- Before the implementation of SAP Business One and Beas Manufacturing, each division had its own stand-alone solution, and there was no uniform database and visibility.

Why SAP and Beas Manufacturing

- SAP Business One and Beas Manufacturing is a powerful solution that came closest to our requirements.
- The AdS Consulting team convinced us with their high level of competence and understanding of our needs.

After: Value-Driven Results

- The uniform database and high data quality provide the company with transparency throughout the entire business process.
- Current evaluations enable a location determination and an efficient control of the company.
- The implementation of Beas Manufacturing is contributing to making Reuter Technologie future-proof in terms of digitalization

Featured Partner

“For me, SAP Business One and Beas Manufacturing mean high data quality and transparency across all business areas”.

Florian Reuter; CFO, Reuter Technologie GmbH
