

Corporate Coffee Brewed to Perfection with SAP Business One®

Founded in 2004 and headquartered in Almere, Van Duijnen Koffie is a supplier of coffee machines, brewing systems and beverage vending machines all across The Netherlands. The company also provides beverage equipment and ingredients for the hotel and catering industries and is mainly focused on corporate office coffee supplies. Van Duijnen Koffie prides itself on being very friendly and customer-oriented.

Before: Challenges and Opportunities

- Heavily reliant on manual, paper-based systems
- Legacy platform cumbersome and unable to accommodate new ID system
- Warehouse inefficiencies and frequent picking errors

Why SAP and Boyum IT / JIS Nederland

- Solution provides an integrated platform with real-time data for optimum logistical oversight
- Solution capable of optimizing stock operations and eliminating picking errors
- Partner considered highly-responsive and proactive

After: Value-Driven Results

- Full oversight and control for logistical operations
- Higher profit margin resulting from process optimization
- One-click customer account management for enhanced sales visit planning and improved customer service
- Streamlined inbound materials handling at warehouse
- Company positioned for future growth and expansion

“I feel we are prepared for the future with SAP Business One because it provides us with the opportunity to monitor and improve our processes, which is critical in businesses with small margins like ours.”
