Vision 33

Solus Ceramics Ltd obtained **streamlined business efficiency** with Produmex WMS, B1UP, and B1P&D

Solus Ceramics is one of the UK's leading suppliers of commercial wall and floor tiles in porcelain, ceramic, glass, metal and natural stone. Operating since 1995, the business offers an incredible selection of more than 100,000 products, meaning it can provide the perfect solution for any space or concept. Solus prides itself on working closely with designers, architects and other professional specifiers around the world, across an array of sectors.

Customer Challenges

- Multiple systems with integration pieces, linking them to share information between inventory, warehouse management, and order processing.
- Need of using only one database/system.
- Need for time efficiency.
- Need for accurate visibility of stock.

Solution

- Being able to use on a system instead of multiple.
- Boyum products can integrate with SAP and can be tailored to fit their needs.

Results

- Greater visibility.
- Time efficiency for the order management department.
- Accurate visibility of stock.
- Streamlined business efficiency with only one database.

"THE SOLUTIONS ARE FLEXIBLE AND HAVE LOTS OF FEATURES AND FUNCTIONS BUILT IN THAT WE CAN CHOOSE FROM AND TAILOR TO OUR NEEDS."

Byron Nikolouzos/ IT Manager
