

Boyum add-on(s): B1 Usability Package, B1 Print & Delivery

Reasons for choosing Boyum:

Regal Ideas decided to use the Boyum add-ons due to the increased user friendliness and functionality. Configuring the add-ons is very easy.

SAP Business One Partner: Vision33 Canada Inc.

Functionality covered with Boyum add-ons and not through standard SAP Business One:

- ✓ Automation of business processes using **Macros**
 - ✓ The ability to **Hide different fields**, buttons tabs or functions from selected users
 - ✓ Saving time by focusing the **cursor on the name field** in documents
 - ✓ **Advanced Validations** to control business processes with configured Alerts and custom functions
 - ✓ **Automating** our Document deliveries by email or any other means of communication
-

Key benefits:

- ✓ Custom Alerts
 - ✓ Advanced Validations
-

"The Boyum add-ons increases customer's satisfaction and makes our work with SAP Business One both faster and more efficient".
