

Boyum add-on(s): B1 Usability Package (B1UP) & B1 Print & Delivery

Reasons for choosing Boyum:

Dimri were impressed by the simplicity and variety of the add-ons. After the presentation we believed it would help us to customize SAP Business One exactly for our needs.

Functionality covered with Boyum add-ons and not through standard SAP Business One:

- ✓ It helped us **secure new process we** implemented in seconds, **without spending hours of programming**
 - ✓ Using the **SQL abilities** in the functions enabled us to create smart screens for some of the users and managers, saving the company time and money
 - ✓ Very **fast Return of Investment**
-

Key benefits:

- ✓ Ability to **hide and disable fields** and determine it by user
 - ✓ Working **with specific rules** customized for our needs
 - ✓ Working with B1 Print & Delivery **saves time and human resource**, and also gives the management scheduled reports keeping them informed
 - ✓ **Designed screens** for users, making their work easier.

"It is like converting SAP from a regular middle aged man or woman to a ballet dancer. It gives it enormous flexibility and endless features.

I have to praise your support and learning center. The best I have ever seen".
