

# SERGI Transformer Protector plans purchasing ahead of time with Beas Manufacturing & SAP Business One

SERGI Transformer Protector is a French company founded in 1955. The initial purpose of the company was to find a solution to extinguish transformer fire. After a few years of investigation, the first drain and stir system was invented as an alternative to the water extinguishing system. SERGI TP is the world leader in transformer explosion and fire prevention. Its intensive research, know-how, and experience offer a unique knowledge to secure transformer installations and customers' assets. SERGI TP's technology, the TRANSFORMER PROTECTOR, prevents transformers from exploding.

## Before: Challenges and Opportunities
