

TeraTron repositions itself with SAP Business One and beas Manufacturing

Company name

TeraTron GmbH,
51647 Gummersbach
www.teratron.de

Industry

Hightech & Electronics

Products and Services

OEM – Electronic Parts (SMD)

Employees

50

TeraTron specializes in OEM electronic solutions such as keyless go systems, immobilizer systems and vehicle keys. The components are used worldwide by renowned commercial vehicle manufacturers, in the agricultural and construction machinery sector as well as in the electric mobility sector. They are manufactured on a highly modern SMD production line with 100% optical automatic inspection after paste printing. The production area meets all EDS requirements.

Before: Challenges and Opportunities

- Highly complex processes
- Planning of resources/capacities (personnel, machines)

Why SAP and beas Manufacturing:

- Previous ERP did not offer flexibility for operational processes
- Restricted reporting, analysis and presentation of data

After: Value-Driven Results

- Significantly simplified work due to process transparency
- Comprehensive reporting functionality for well-founded decisions

“Without SAP Business One and beas manufacturing, TeraTron would not be able to produce as effectively as we do today.”

Andreas Döhl, IT Manager, TeraTron GmbH
