Emerald Home Furnishings is a full-line supplier to home furniture retailers throughout the United States and in other countries around the world. The current product lineup includes fabric and leather upholstery, motion furniture, casual and formal dining room furniture, bedroom suites, outdoor dining and occasional seating, a complete sleep systems line of gel and innerspring mattresses, as well as entertainment, home office, occasional tables, and accent chairs.

Why choose SAP, Boyum and our add-on:

- We needed a good sized company to support us on our future growth, so we chose SAP Business One
- Beas Manufacturing is able to integrate with SAP Business One
- The ability to create custom-made reports
- SAP Business One offers a lot of different add-ons to where we can continue to grow the areas that we need to grow within SAP

Which benefits have you achieved after the implementation:

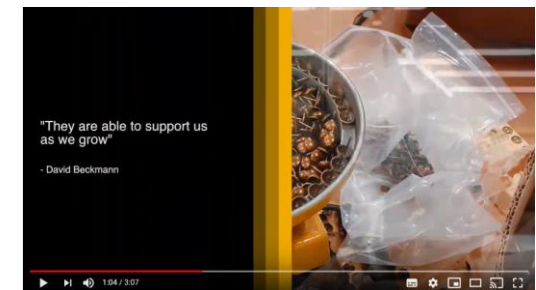

- An easy to use, user friendly system that works well for us
- We now have complete inventory control
- Custom-made report to show us what we got in stock, what we got in order and what's on schedule
- We have traceability all the way through our systems
- We can keep a clean cut of our inventory so we know our quantities and our values all times
- We're able to be a lot more seamless for us and for our customers

"It services our needs, we're able to monitor everything from the front door to the back door and we're able to integrate between both systems."
