Norcross GA, USA  
<https://www.toltecafoods.com>

## Industry

Food & Beverages

## Products and Services

Mexican and Mexican-American food wholesaler & distributor

## Employees

35

## Solutions

SAP Business One & Produmex WMS

Tolteca Foods is a wholesale and distributor of Mexican and Mexican-American products. They supply to restaurants all type of products from napkins to tomatoes. As a leader in the Mexican foodservice industry they needed a robust system to support their growth. With SAP Business One and Produmex WMS they have streamline their operations and improve the level of service.

## Before: Challenges and Opportunities

- Need for a more contemporary software solution
- Lack of information and support of the operations of the company

## Why choose SAP Business One, Boyum and Vision33:

- SAP Business One provided centralized record of all customers and vendors
- SAP Business One provided built-in inventory management
- SAP Business One is intuitive, user-friendly and easy to learn
- Vision33 walked them through the implementation of add-ons and customizations they needed

## After: Value-Driven Results

- Significant saving in manual work as every aspect is automated now
- Better visibility and clarity in inventories which enables to have better organized dispatching, warehousing, sales. With Produmex WMS at the center of their operations, it is allowing to excel all.
- Profitability is improving every year since they have the systems in place.

*"Thanks to Vision33 and SAP Business One, my company has become a really exciting place with a brilliant future ahead."*

Silvia Garcia, CEO & President, Tolteca Foods Inc.
