SAP Solutions

SAP Business One
Produmex WMS by Boyum IT

Tolteca Foods is a wholesale and distributor of Mexican and Mexican-American products. They supply to restaurants all type of products from napkins to tomatoes.

As a leader in the foodservice industry they needed a robust system to support their growth. With SAP Business One and Produmex WMS they have streamline the operations and improve the level of service.

Before: Challenges and Opportunities

- Need for a more contemporary software solution
- Lack of information and support of the operations of the company

Why SAP Business One and Produmex WMS (Boyum IT) deployed by Vision33

- SAP Business One provided centralised record of all customers and vendors
- SAP Business One provided built-in inventory management
- SAP Business One is intuitive, user-friendly and easy to learn
- Vision33 walked them through the implementation of add-ons and customisations they needed
- Visibility with Produmex WMS.

After: Value-Driven Results

- Significant saving in manual work as every aspect is automated now
- They have now better visibility and clarity in their inventories which enables to have better organized dispatching, warehousing, sales,... With Produmex WMS at the center of their operations, it is allowing to excel all.
- They have complete control of inventory
- Their profitability is improving every year since they have the systems in place. That was something they could not envision as an small business.

“Thanks to Vision33 and SAP Business One, my company has become a really exciting place with a brilliant future ahead.”

Silvia Garcia, CEO & President, Tolteca Foods Inc.
